

## **PUBLIC NOTICE FOR IMMEDIATE RELEASE**

In preparation for the construction of the Royal Lane Park Phase 1A project, the area from Ellen Street to the back of baseball field #4, the area from the parking behind baseball field #4 and around the track area leading up to Royal Lane will be closed beginning Monday, May 22, 2017. This area will be closed until construction has been completed. The pool area will be open to the public as normal. This project will greatly improve the park area by providing new playground equipment/area, a newly paved track around the renovated/expanded multipurpose field, ¼ mile newly paved greenway around the renovated areas, a new park sign, a new paved parking lot between the pool and the multipurpose field with a paved entry road from Ellen Street to this newly paved parking area, a small new shelter at the playground area, and a new irrigation system on the multipurpose field. So, please have patience with us throughout this project as we make our park and Clinton “The Perfect Place To Play”.
